

Hikmat Mahammadov

SYSTEMS ADMINISTRATOR | IT INFRASTRUCTURE SUPPORT

Azerbaijan | hikmet2000.hg@gmail.com | +994 55 438 76 47 | linkedin.com/in/hmoff1711

PROFESSIONAL PROFILE

Systems Administrator and IT Infrastructure Support professional with 5+ years of experience supporting newsroom and education environments. Focused on L1/L2 troubleshooting, user and endpoint support, Windows infrastructure, Active Directory, Group Policy, DNS, DHCP and Microsoft 365 administration. Hands-on experience with Dell EMC Isilon / OneFS and Windows deployment with Sysprep, WDS and MDT. Based in Azerbaijan and open to relocation.

TECHNICAL EXPERTISE

Systems & Identity: Windows Server; Active Directory (AD); Group Policy (GPO); DNS; DHCP; Microsoft 365

Endpoint & Deployment: L1/L2 troubleshooting; user and endpoint support; Windows deployment (Sysprep, WDS, MDT)

Virtualization & Storage: Dell EMC Isilon / OneFS; Proxmox; VMware ESXi

Platforms & Lab Practice: OpenVPN; Nextcloud; UVDisk; Cisco routing and switching (lab); Palo Alto Networks firewalls (lab)

PROFESSIONAL EXPERIENCE

AZERTAC NEWS AGENCY

May 2024 - Present

Information Technology Staff | Systems & Network Administration

- Administer Windows infrastructure services, including Active Directory user, computer and service accounts, group membership, DNS, DHCP and Group Policy troubleshooting.
- Administer Microsoft 365 and resolve user issues involving licensing, activation, Outlook profiles, authentication, synchronization, file associations, add-ins and mail delivery.
- Manage Dell EMC Isilon / OneFS shares, permissions, ACLs, snapshots, storage capacity and user access; reworked and validated group-based SMB permissions through ACL and ownership normalization.
- Support Windows deployment through WDS, MDT, PXE and WinPE, including boot images, task sequences and client deployment troubleshooting.
- Investigated SFTP throughput degradation using iperf3, time-of-day comparison and cross-service testing; evidence pointed to the network path rather than the file-transfer server.

STEP IT ACADEMY AZERBAIJAN

Oct 2022 - May 2024

Information Technology Specialist

- Supported computer labs, endpoint devices, peripherals and users in an on-site education environment.
- Deployed software, onboarded users and resolved LAN, hardware and software incidents.

AZERTAC NEWS AGENCY

Jun 2021 - Oct 2022

Information Technology Staff | Systems & Network Administration

- Supported IT infrastructure operations and endpoint provisioning in a newsroom environment.
- Supported Proxmox and VMware ESXi; maintained Dell EMC Isilon NAS and Hikvision NVR systems.
- Deployed UVDisk, OpenVPN, Zabbix, Wazuh SIEM and Nextcloud.
- Prepared Windows 10 endpoints using a Sysprep image.
