PROFESSIONAL SUMMARY

IT Infrastructure Specialist with more than five years of experience supporting Windows-centered operations in newsroom and education environments. Core experience covers Active Directory, Group Policy, DNS, DHCP, Microsoft 365, Dell EMC Isilon / OneFS, Windows endpoint deployment and L1/L2 incident resolution. Applies controlled changes, verifies user-facing results and escalates unresolved issues with evidence. Based in Azerbaijan and open to employer-sponsored relocation.

TECHNICAL EXPERTISE

WINDOWS PLATFORM | Windows Server; Windows endpoints
IDENTITY & SERVICES | Active Directory; Group Policy; DNS/DHCP; Microsoft 365
ENDPOINT DEPLOYMENT | Sysprep; WDS; MDT; PXE; WinPE
STORAGE & VIRTUALIZATION | Dell EMC Isilon / OneFS; SMB permissions/ACLs; Proxmox; VMware ESXi
LINUX & DIAGNOSTICS | Ubuntu; ProFTPD / mod_sftp; SFTP; iperf3

PROFESSIONAL EXPERIENCE

AZERTAC NEWS AGENCY

May 2024 - Present

Information Technology Infrastructure Specialist

- Administer Active Directory user, computer and service accounts and group membership; troubleshoot Group Policy, DNS, DHCP, identity and access incidents.
- Administer Microsoft 365 and resolve licensing, activation, Outlook profile, authentication, synchronization, file association, add-in and mail-delivery incidents.
- Reworked group-based OneFS SMB access by normalizing ACLs and ownership, validating restricted and full-access paths, and documenting the remaining new-file ownership limitation and interim repair control.
- Support Windows deployment with WDS, MDT, PXE and WinPE, including boot images, task sequences and client-side troubleshooting.
- Hardened ProFTPD / mod_sftp on Ubuntu and investigated time-dependent SFTP degradation with iperf3 and cross-service comparison; evidence moved the fault boundary from the file-transfer service to network-path, QoS and provider investigation.

STEP IT ACADEMY AZERBAIJAN

October 2022 - May 2024

Information Technology Specialist

- Provided on-site support across classrooms, computer labs and offices for Windows endpoints, peripherals, printing and routine LAN incidents.
- Deployed software, maintained standard Windows images for student PCs, prepared endpoints, and supported user onboarding and day-to-day technical guidance.

AZERTAC NEWS AGENCY

June 2021 - October 2022

Information Technology Infrastructure Specialist

- Supported day-to-day IT infrastructure operations, endpoint provisioning and L1/L2 troubleshooting across hardware, software, peripherals and connectivity.
- Supported Proxmox and VMware ESXi environments, Dell EMC Isilon storage and Hikvision NVR systems.
- Deployed and supported UVDisk, OpenVPN, Nextcloud, Zabbix and Wazuh; prepared Windows 10 endpoints from a standardized Sysprep image.

EDUCATION & TRAINING

Azerbaijan Technical University

2018 - 2022

Bachelor's Degree, Organization and Management of Industry

STEP IT Academy Azerbaijan

2018 - 2021

Diploma, Networks and Information Security

TRAINING Cisco Networking Academy coursework: CCNA Routing and Switching curriculum, CCNA Security curriculum, Cybersecurity Essentials and IT Essentials: PC Hardware and Software; NDG Linux Essentials.
